VASYL KRAVETS

Digital & AI Specialist — AI Chatbots, Automation & Websites

Vaughan, ON • hello@corepulsedev.com • vkravets.com • linkedin.com/in/kravetsCP

SUMMARY

AI automation and web builder. I build working AI chatbots, workflow automations and multilingual websites end to end — from knowledge base and guardrails to hosting and domains — using Claude, Lovable and n8n. Backed by ten years of hands-on technical work in industrial mechanics and commercial glazing, a management degree, and a habit of testing everything before it ships. Languages: English, Russian, Ukrainian.

AI & WEB PROJECTS

CorePulse — AI Automation & Web Building (independent) 2026 – Present

- Company website with an interactive particle hero, a Claude-powered assistant in four languages (EN / FR / UA / RU) and a contact flow that routes leads to Telegram and Google Sheets through self-hosted n8n.
  Live: corepulsedev.com

NorthFrame Windows — AI Chat & Lead-Handling Automation (portfolio) Oct 2026

- Designed an AI chat for a concept GTA window-replacement company: residents get answers and a hand-off to a coordinator; property managers submit building assessment requests into Google Sheets.
- Wrote the bot's knowledge base from my own four years of window-installation work in occupied high-rise buildings. Site in 5 languages (EN / FR / RU / ZH / PA).
- Self-hosted n8n on DigitalOcean (Docker, PostgreSQL, HTTPS). Claude triages each new request by priority and sends a Telegram alert; a Telegram coordinator bot updates lead status in Google Sheets through an AI agent.
  Live demo: northframe.corepulsedev.com

WORK EXPERIENCE

Mechanical Assembler — Roshel Inc. Aug 2026 – Oct 2026

- Mechanical assembly of armored vehicle components following drawings, work instructions and quality requirements.

Window Installer / Glazier — Commercial Glazing, GTA Jun 2022 – Jul 2026

AWD Aluminium Windows, Gage Aluminum & Glass, Active Wall, VS Aluminum; independent contracting

- Window replacement in occupied residential towers up to 30 storeys, working from suspended work platforms.
- Frame assembly, installation and sealing according to shop drawings, under Ontario fall-protection and site-safety rules.

Industrial Equipment Service & Repair Mechanic — ENETEP LLC, Ukraine Mar 2016 – Jun 2021

- Servicing, troubleshooting and repair of industrial equipment; reading technical drawings and documentation.

EDUCATION

Specialist Diploma, Management of Organizations and Administration (2015) · **Bachelor of Management** (2014)
Admiral Makarov National University of Shipbuilding, Mykolaiv, Ukraine — coursework incl. information systems, IT in management, project management, logistics

CORE SKILLS

AI: Anthropic Claude (API, Claude Code, Haiku / Sonnet) • AI agents & agentic workflows • Subagents & agent skills • Prompt engineering • LLM guardrails • Knowledge-base design • Multilingual chatbots • ChatGPT

Automation: n8n (self-hosted) • Voiceflow • Telegram Bot API • Google Sheets / Google Cloud service accounts • REST APIs & webhooks

Web: Lovable • AI-assisted development (React, Tailwind) • Website multilingual setup • Git / GitHub • DNS & custom domains • DigitalOcean, Docker, PostgreSQL basics • Framer (basic) • AI video (Higgsfield)

Other: QA / software testing • Python basics • Excel • Technical drawings • Project management

CERTIFICATIONS

Anthropic (2026): Claude Code 101 • Claude Platform 101 • Introduction to Subagents
Introduction to Agent Skills • AI Capabilities and Limitations • Software Testing — SkillUp IT School (2023, ID KV-O-06985)

All certificates are listed with verification links on LinkedIn.
